

The X

Kaskade

Darlin', we were just starting out
But I cant deny the someone I saw
Darlin', we were just starting out
Dont like a sound with it, hope I did rightI wont pretend
She was less than a friend
Together such a long time ago
Forgot how she made me feel soThen out of the blue
God gave me you
And this is where my heart is at
And Ill never look backDarlin', we were just starting out
But I cant deny the someone I saw
Darlin', we were just starting out
Dont like a sound with it, hope I did rightRoll me once again
Are you [Incomprehensible] roll me once again
Soak, soakDarlin', Im sure
Weve got something that's pure
And this is where our love will live
Weve got so much to giveRoll me once again
Soak into your skin
With all my soul
Im gonna take holdRoll me once again
Soak into your skin
With all my soul
Im gonna take holdRoll me once again
Soak into your skin
With all my soul
Im gonna take holdDarlin', we were just starting out
But I cant deny the someone I saw
Darlin', we were just starting out
Dont like a sound with it, hope I did rightWe were just starting, starting right here
We were just starting, starting right hereRoll me once again
Are you [Incomprehensible] roll me once again
Soak, soakRoll me once againSoak
