The X

Kaskade

Darlin', we were just starting out But I cant deny the someone I saw Darlin', we were just starting out Dont like a sound with it, hope I did right wont pretend She was less than a friend Together such a long time ago Forgot how she made me feel soThen out of the blue God gave me you And this is where my heart is at And Ill never look backDarlin', we were just starting out But I cant deny the someone I saw Darlin', we were just starting out Dont like a sound with it, hope I did rightRoll me once again Are you [Incomprehensible] roll me once again Soak, soakDarlin', Im sure Weve got something that's pure And this is where our love will live Weve got so much to giveRoll me once again Soak into your skin With all my soul Im gonna take holdRoll me once again Soak into your skin With all my soul Im gonna take holdRoll me once again Soak into your skin With all my soul Im gonna take holdDarlin', we were just starting out But I cant deny the someone I saw Darlin', we were just starting out Dont like a sound with it, hope I did rightWe were just starting, starting right here We were just starting, starting right hereRoll me once again Are you [Incomprehensible] roll me once again Soak, soakRoll me once againSoak
