Burn This City

Stay up all night and sleep all day We were smart kids with too much to say And so, so sure that they were missing out They're the ones who are missing outWe were elemental Talked down to bear essentials Who knew we'd get so far?'Cause our days were numbered by nights On too many rooftops They said, we'd burn so bright We burn this city and goPlay it again (Our games of love and lust) There's no such thing (No there's never too much) And we were so, so sure Oh we never had a doubt Now were counting days to getting outAnd we were elemental Took down to bear essentials Who knew we'd get so far?'Cause our days were numbered by nights On too many rooftops They said we're wasting our lives But oh at least we know That if we die, we lived with passion They said, we'd burn so bright We burn this city and goPack our bags and let's get away

They're catching on to us
Pack our bags and let's get away
They're catching on to us'Cause our days were numbered by nights
On too many rooftops
They said we're wasting our lives
But oh at least we know
That if we die, we lived with passion

They're catching on to us

Pack our bags and let's get away

They're catching on to usPack our bags and let's get away

They said we'd burn so bright
We burn this city and goWe burn this city and go
Oh we burn this city and go
Yeah we burn this city and goOur days were numbered by nights
On too many rooftops
They said we're wasting our lives
But oh at least we know
That if we die, we lived with passion
They said we'd burn so bright
Oh oh oh
