

# kuro to shiro

## Cocaine 80s

Which way is up  
On a sphere  
Moving fast  
I can feel  
That's why I'm ill ill ill ill ill ill...White or black  
Why is that  
It sets you back  
Like the price  
Of YSL L L L L  
L's in the air But are you really sure of all your facts?  
The ancient artifacts  
The truth in white & black  
What if this whole world is just a crash  
Course in gettin back  
To where the colors match?  
It's so...  
Kuro... to... shiro...  
So...The up and down  
Could fuck around  
And get your strong  
I got a pound  
Let's work it out  
Cloud in the air  
Day is night  
Night is day  
They don't know what  
The fuck they talkin bout  
Or what they're tryna say  
They saying you should be afraid  
But are you really sure of all your facts?  
The ancient artifacts  
The truth in white & black  
What if this whole world is just a crash  
Course in gettin back  
To where the colors match?  
It's so...Kuro... to... shiro...  
So...Here's the picture, developed in a dark room  
They say the world is soon to be a monsoon  
And my mom's room, the picture's all black and white

Family members I might see in the afterlife  
They say rob, you tryina live that pastor's life  
Spreadin the good word, makin sure the cash is right  
Nah, my life is more Cassius like, sacrifice on parliament flash lights  
Neon lights, it's more than a black thing and beyond white  
I say the things that the eon's might,  
If they could, like even if you having a day then that's good  
I stand for the misunderstood and those that been through the mud  
The dirt, the sweat, under the rug  
The niggas that's been in love and ain't afraid to admit it  
The one who ain't with them other but, they committed to the children  
They came from the bricks and still buildings  
They ain't have a mill, now I'm getting millions  
Now, the willing, the able, the still stealing cable  
Looking at life, they could see us interracial  
Cause everything we see ain't black and white  
More like God in the beginning, there was light.
