

# Murderer

## Grave Digger

You bloody liar, I feel the spear  
You've spread the poison and I've learned my lesson  
I hear the wind whispering in my ear  
I see the light of day, I feel death is near Murderer, what have you done?  
Murderer, the hero's gone  
Murderer, with pain you will die  
Murderer, your soul will cry The sun goes down, the night is falling  
Gods of darkness surround my soul  
You faceless evil, you took my blood  
Heaven knows who murdered me Murderer, what have you done?  
Murderer, the hero's gone  
Murderer, with pain you will die  
Murderer, your soul will cry Murderer, what have you done?  
Murderer, the hero's gone  
Murderer, with pain you will die  
Murderer, your soul will cry Murderer, what have you done?  
Murderer, the hero's gone  
Murderer, with pain you will die  
Murderer, your soul will cry
