

Savannah

Moon Taxi

In the summer I was left behind
You're across the ocean and never off my mind
I gotta see you with my own eyes
let's find a place where we can run and hide
and finally, finally we'll be Savannah, can't you see?
Oh there's motion between us
and who would ever believe us?
and don't let it stop
And we'll go around the world
With no one to lead us
and who would ever believe us?
And don't let it stop Walkin' down the street
that I never see
I just can't tell if it's all a dream
But don't get lost when you're on your own
You gotta find a way to make it home
And finally, finally we'll be Savannah, can't you see
Oh, there's motion between us
and who would ever believe us?
and don't let it stop
And we'll go around the world
with no one to lead us
Oh who would ever believe us?
And don't let it stop
