

# Night Swim

## Josef Salvat

Swim, swim, swim...Take off your clothes  
The water is warm  
I wanna take you for a night swim  
Believe what you want  
But there's no one around  
Don't play games, just get in  
Oh, I spent all my money on this few  
So I could be alone lost with youTaking names into my break  
No hear, can't know what this means  
She's used to getting everything you want  
But you're the only thing that's come my way for free  
Whisper words into my ears, will you?  
As we dissolve into the breeze  
You're taking me back to the start  
With you I forget who I've been, I'm cleanI know that it's late but wait  
Wait, I'll guide you home  
Just stay a little longer and swim  
With me in the roof top poolUp and the same  
It's bite till the end  
That never lost forever  
And sometimes I think  
I'd be better off  
Out of the city all together  
Still I spend all my money on these few  
'Cause none of that shit matters up here with youTaking names into my break  
No hear, can't know what this means  
She's used to getting everything you want  
But you're the only thing that's come my way for free  
Whisper words into my ears, will you?  
As we dissolve into the breeze  
You're taking me back to the start  
With you I forget who I've been, I'm cleanI know that it's late but wait  
Wait, I'll guide you home  
Just stay a little longer and swim  
With me in the roof top pool
