Another Way

Savatage

Times were changin' eighteen years and fadin'
Ain't a lot of time left to be a star
On an island all alone and dyin'
Walk upon the water but you won't get farDreams and visions tied into decisions
Saw you on a postcard from the other side
Hope and glitter never feelin' bitter
Walk upon the water just to be your brideDon't tell me now that there is nothing more
There is a how just like there is a door
And if there's not to be another way
You tell me Why? Why? Why? Why?Stay and follow If the words are hollow
Gotta' go along 'cause it's all you got
Each day earn them turn around and burn them
Think your fittin' in but you hope you're notNeatly drownin' every drink you're down in
If you drink enough You'll forget the game
Each illusion wrapped in absolution
Live your life in weekends but it's not the sameDon't tell me now that there is nothing more
There is a how just like there is a door
And if there's not to be another way
You tell me Why? Why? Why? Why?
