

# Hold On a Little Longer

## The King's Heralds

Hold on A Little Longer

We surely can see the signs of the times,  
They're on TV and in the headlines  
War and strife in every land,  
I know that you understand.

Hold on a little longer my friend,  
Hold on a little longer and don't give in,  
Jesus has promised His love till the end,  
Hold on a little longer my friend.  
Just hold o-on!

We surely can see the clock on the wall,  
The mi-dnight hour when doomsday will boil,  
We've been warned of thieves in the night,  
So keep your lamp burning bright.

Hold on a little longer my friend (hold my friend),  
Hold on a little longer and don't give in,  
Jesus has promised His love till the end,  
Hold on a little longer my friend.  
Hold on to His lo-ve!

We surely can see the Spirit's power,  
Touching lives in earth's final hour,  
Holding back the winds of strife,  
In hope that one more will find life, and come to know Christ.

Hold on a little longer my friend (hold my friend),  
Hold on a little longer and don't give in,  
Jesus has promised His love till the end,  
Hold on a little longer my friend.

Hold on a little longer my friend (just a little longer, a little longer),  
Hold on a little longer and don't give in,  
Jesus has promised His love till the end,  
Hold on a little longer my friend.  
My friend!

Hold on my friend!
