The Womack Family Band

Sara

(V1)

Sara, Sara, dig it up and use it again
brush off the dirt and plant it at the feet of a friend
wash your hands of this and
nail those knees to the ground
now get out your shovel and
show me everything that you found

(V2)

Sara, Sara, sittin' by yourself in a hole
hopin' someone's comin' along
that's gonna drop you a rope
but Sara, I can tell you ain't gonna be well
'til you can tell that you're buried underneath o' yourself

(CH)

(Sara)

Don't you walk away, I'm talking
can't you see that I'm so lonely
(just like everyone)?

(V3)

Sara, Sara, I can see it's starting to hurt
all wide-eyed floppin' around like a fish in the dirt
but don't be suprised at the troubled times upon you
you're just feelin' the weight of all the things you hold on to

(CH)

(Sara)

Don't you walk away, I'm talking
can't you see that I'm so lonely

(just like everyone)?

(V4)

Sara, Sara, why can't you see what you do?
Open your eyes and find there ain't nothin' to prove.
You've held tight to these things for long enough.

Sara let it go and feel my love
Sara let it go and feel my love, I said
Sara let it go and feel my love
