

# Illume

## Lust for Youth

To your life, I rush to be  
Get a hold of myself, why did I stay  
It's in your life, tomorrow chase  
Don't run through the night  
Side by side.

To your life, was left to pay  
In the brighter night, what can I say  
To your light, to your light.  
"Our Worlds crash  
But yours turned.  
When you're not high  
I watch it burn".

To your life, we're side by side  
Can I hold myself, why did I stay?  
It's in your light, tomorrow's change  
But rush tonight, to your light.

"Our Worlds crash  
But yours turned.  
When you're not high  
I watch it burn".

"Our Worlds crash  
But yours turned.  
When you're not high  
I watch it turn".
