

# I Want Somebody (Bitch About)

[Kristin Chenoweth](#)

Hey, haha yea you, yea y'all better listen up now. uh-huh, huh ok.  
I want someone I can talk to, All night anytime I want to  
Who'll be there when I want and won't be there when I don't want him to be  
Who understand's it's not easy to understand me  
Somone who loves me sometimes bug's me sometimes makes me wanna scream  
I need my space someone not in my face, I want somebody I want somebody I can bitch about  
I want somebody I cant live without  
I want somebody who can make me insane completely crazy  
I want someone who's gonna come and mess me up and make me want him way to much  
Sometimes hate me sometimes love me  
I want somebody, I want somebody I want someone I can fight with, and then make up all night with  
Someone who makes me mad and makes me laugh and has my back through it all  
Someone who loves my flaws and loves me cause im crazy  
When I feel ugly they'll still love my they'll still think im beautiful  
And when im a mess they'll still think im the best I want somebody, I want somebody I want somebody I can  
bitch about  
I want somebody I cant live without  
I want somebody who can make me insane completely crazy  
I want someone who's gonna come and mess me up and make me want him way to much  
Sometimes hate me sometimes love me  
I want somebody, I want somebody Someone who knows when to stay away  
Knows how to take my breath away  
Knows that no one can love me better  
What I need is, What I need is Somebody I can bitch about  
Somebody I cant live without  
Want someone who's gonna make me insane completely crazy  
I want someone who's gonna come and mess me up and make me want him way to much  
Sometimes hate me sometimes love me  
I want somebody, I want somebody I want somebody I can bitch about  
I want somebody I cant live without  
I want somebody who can make me insane completely crazy  
I want somebody I can bitch about  
Huh-haa
