

# Lost Boys and Girls Club

## Dum Dum Girls

Avoiding my head  
The hole in my heart  
I fill them with things  
Which all fall apart I enlist the gods  
And all the frauds  
We are hand and glove  
Daisy chains of love There's no particular place we are going  
Still we are going (yes we are)  
There's no particular place we are going  
Still we are going (yes we are) I rise and shine  
And I look behind  
Your eyes are black x's  
Of hate and of hexes My soul of vapor  
I'm light as a feather  
And I bind together  
The pain, the pleasure There's no particular place we are going  
Still we are going (yes we are) The lost boys and girls club  
The lost boys and girls club
