

Backdoor

Buffalo Road

When your days get lonely (days get lonely)
When your nights get cold (nights get cold)
When the rain starts pouring (rains starts pouring)
When your man aint home (man aint home)
 You can call me baby (call me baby)
 You can let me know (let me know)
 You aint had none lately (had none lately)
Lemme in your backdoor (let me in your backdoor)
 Meanie walks out the door
Meanie act like he dont want you no more
 You can do the same thang
 Two can play at this game
 With his love and you bored
 He got you doing his chores
 Minus will be with me
 You aint nobody's slave
 When your days get lonely
 He aint never gone change
He still be playing them games
 You can do the same thang
 Girl I won't say a thang
 If you dont tell, I wont tell
We gave in life, what the hell
We both want the same thang
 Aint no need to complain
 When your days get lonely
