

# Try

## John Newman

Working so hard, I was so alone  
So much on my cards, so much going on  
And lately I've found I'm heading astray  
And none of your feelings came in to play  
I'll make you stronger, stronger  
'Cause now I can see the fakes that use me  
I'll make you stronger, stronger  
'Cause I know it's you saving me I will try, try, try not to bring it all home  
I will fight, fight, fight for what we had before  
You don't even want this  
You don't even need this  
You don't have to cover up your tears at all  
I will try, try, try not to bring it all home  
Try na, na, na 10 days apart when 3 seems insane  
You can't hear my voice you still hear my name  
A call from a afar a message to send  
I pray you don't leave me nothing's changed  
I'll make you stronger, stronger  
'Cause now I can see those fakes that use me  
I'll make you stronger, stronger  
'Cause I know it's you saving me I will try, try, try not to bring it all home  
I will fight, fight, fight for what we had before  
You don't even want this  
You don't even need this  
You don't have to cover up your tears at all  
I will try, try, try not to bring it all home I'm so sorry darling  
I've been breaking this home for far too long  
So I, I will try  
I will fight  
You don't even want this  
You don't even need this  
You don't have to cover up your tears at all  
I will try, try, try not to bring it all home  
Try na na na, oh...
