

Not Over Yet (feat. Larry Soliman)

Memphis May Fire

[Verse 1]

She used to feel beautiful,
Before the world made her feel so small.
Now she prays that she just won't feel at all.
He used to believe he was strong,
Undefeated by this army of one,
Before the voices told him he was wrong.[Pre-Chorus]
Don't let your fears keep you from dreaming,
It's all a lie when you believe you can't.
If you're not trying you're dying,
So grab the wheel with your hands.[Chorus]

When they try to tell you
That your one and only shot failed,
It's not over yet!
Keep pushing forward
And I know one day you'll prevail,
It's not over yet!
(It's not over yet, it's not over yet,
It's not over yet!)[Verse 2]
Falling down is life,
Living is getting back up again.
Don't let your spirit die,
Keep fighting for a passion and a will to live ,
Cause I believe that
Your spark can start a fire.[Chorus]

When they try to tell you
That your one and only shot failed,
It's not over yet!
Keep pushing forward
And I know one day you'll prevail,
It's not over yet!
Let your fears fall by the wayside,
It's not over yet.[Bridge]
Take what they say,
And turn it inside out.
There's a Silver lining in the clouds of doubt.
Lean into the storm with
Open arms and let them know
You didn't come this far to just let go,

I believe that your spark can start a fire! [Chorus]

When they try to tell you

That your one and only shot failed,

It's not over yet!

Keep pushing forward

And I know one day you'll prevail,

It's not over yet!

Let your fears fall by the wayside,

(Let your fears go, let your fears go)

Keep on fighting for a better life,

It's not over yet, yeah! [Outro]

Dream on, dream on!

In the middle of the storm

Raise your fist and scream

"It's not over yet"!
