

# Still Here

## Sawyer Fredericks

Goodnight, my love  
It's been a long day  
To bring my spirits up  
Ain't gonna be easyI'll see you in the morning  
Put a smile on my face  
But you won't even speak to me  
So why am I to stay?So take my hand  
'Cause this is where I stand  
'Cause I need to know  
If you're even there  
Yes, I need to know  
If you're still hereYour love is faded  
It's faded as your jeans  
'Cause you don't love me anymore  
But you won't leaveKeep tryin' to make you happy  
But it gets harder and harder  
I keep on givin' my love  
It's like you don't even want it  
But I can't keep it up anymore  
'Cause I'm gonna walk out that door  
It's like you don't even care anymore,  
But I need to knowSo take my hand  
'Cause this is where I stand  
Tired of your lies  
No help at hand  
So take my hand  
'Cause this is where I stand  
'Cause I need to know  
If you're even there  
Yes, I need to know  
If you're still here
