Should I?

Glen Gray

Boy you standin real close to me
Tell me now what its gunna be
You like what u see
But lovin dont come easily
Now your whipserin in my ear
All the things that i wanna hear
Let me make it very clear
Words are not enough for me
Did you think that you could smile and steal my heart away?
Cant deny i like your style
But it dont just work that way
[chorus]Oooh
Im kinda feelin you right now
You keep me standin tight now
Its gettin hard to fight now
Still i wonder when should i
Oooh
U know they're playin my song now
U know ur turnin me on now
The feelings gettin strong now
Still i wonder when should i
Back n forth
Baby round n round
So high that i cant come down
Its to late to turn back now
Still im scared to loose control
Feel the heat burnin like the sun
Feel the beat as we move as one
Dont stop till the night is done
Hold me close boy
Dont let go
Still i got to know if this is real or just a dream
Because in the mornin my true love is what i wanna see
Oooh
Im kinda feelin you right now
You keep me standin tight now
Its gettin hard to fight now
Still i wonder when should i
