

Heaven

Bebe Winans & Cece

Now that its over
Theres no more use for guns and war
Cost me a lifetime
Just to gain this lifes rewardThey say streets of gold
Can you imagine somewhere
Where life will never end
No one ever grows old
Oh, my brother please
Come with meIts what I live for
A place where love will never cease
Willing to die for
Heaven is where I want to beThere are instructions
We must follow to a tee
In order to reach there
And there is where Ive got to beChorusRepeat ChorusNo more nights
There is a place
Where therell be no more crying
He is the light
Counting the days
When we meet in that place
