

# Summerbreeze

## Danoo

It might have been a while  
Since you've been loved  
Like you should be loved  
It might have been a while  
Since you've been kissed  
Like you should be kissed  
In tender loving arms  
Might be something you miss  
Well summerbreeze is blowing through your window  
And summerbreeze is blowing through your hair  
And something in your eyes that you cannot disguise  
Don't tell me it ain't there  
It might have been a while  
Since you've been loved  
By one who really loves you  
It might have been a while  
Since you could trust  
That someone really cares  
When people like us  
Meant to go 'round in pairs  
Summerbreeze is blowing through your window  
And summerbreeze is blowing through your hair  
Something in your eyes that took me by surprise  
Don't tell me that it ain't there
