

Last Man Standing

People In Planes

I'll be the last man home
I am the last man stand survivor
I'll be the last man home You're all alone sitting in the corner
You've got a killer stare
Who's messing round with you in the corner?
He better say his prayers You found yourself a new sensation
But baby, it's a jungle out there
The ones you counted on are all but gone
Baby, it's a jungle out I am the last man stand survivor
I'll be the last man home
I am the last man stand survivor
I'll be the last man home I wish you would try and look
A little more excited
Let me stay, let me 'cause I'm coming anyway I am the last man stand survivor
I'll be the last man home
I am the last man stand survivor
I'll be the last man home I am the last man stand survivor
I'll be the last man home
Yeah, I'm the last man stand survivor
I'll be the last man home You found yourself a new sensation
But baby, it's a jungle out there
The ones you counted on are all but gone
Baby, it's a jungle out there
