Last Man Standing

People In Planes

I'll be the last man home I am the last man stand survivor I'll be the last man homeYou're all alone sitting in the corner You've got a killer stare Who's messing round with you in the corner? He better say his prayers You found yourself a new sensation But baby, it's a jungle out there The ones you counted on are all but gone Baby, it's a jungle outI am the last man stand survivor I'll be the last man home I am the last man stand survivor I'll be the last man homeI wish you would try and look A little more excited Let me stay, let me 'cause I'm coming anywayI am the last man stand survivor I'll be the last man home I am the last man stand survivor I'll be the last man homeI am the last man stand survivor I'll be the last man home Yeah, I'm the last man stand survivor I'll be the last man homeYou found yourself a new sensation But baby, it's a jungle out there The ones you counted on are all but gone
