

Bomber

Motörhead

Oh
Aah
Ain't a hope in hell
Nothing is gonna bring us down
The way we fly
Five miles off the ground
Because we shoot to kill
And you know we always will
It's a bomber, it's a bomberScream a thousand miles
Hear the black death rising moan
Firestorm coming closer
Napalm to the bone
Because you know we do it right
A mission every night
It's a bomber, it's a bomberNo night fighter
Gonna stop us getting through
The sirens make you shiver
You bet my aim is true
Because you know we aim to please
Bring you to your knees
It's a bomber, it's a bomber, it's a bomberYeah
