

Simple Complication

The Blue Dogs

This is the first time
Also the worst time
For me to fall in love with you
If the truth was told on me
You had a hold on me
And I wondered if you knew It's a simple complication
That destroys a piece of mind
Looking for a feeling I'll never find
Stays with me every day
Always getting in my way
Hoping for another place in time
A simple complication
you're on my mind Passed by you the other day
You were going the other way
I asked myself what else is new
You were walking hand in hand
It's a sight I can't stand
What in heavens' name can I do chorus La La La La La ... Chorus But the simple part of loving you
was all I felt
The complicated part is you belong to someone else
Can't play the game
cause it's one I can't win
I guess you play the hand you're dealt Chorus
