

# White Lies

Paul Van Dyk

Uh oh  
I'm being pulled into the fire of intoxic flame  
I'm too close  
And there's a good chance that I won't get away And I needed going into the daylight  
And I'm looking for it into the night  
Then I think about it and I can't live without it  
You're telling me that, that's alright Can't get enough, can't get enough  
When you're telling me the white lies, champagne  
It's getting rough and I wanna know  
If I'm addicted to your white lies in vain Can't get enough, can't get enough  
When you're telling me the white lies, champagne  
It's getting rough and I wanna know  
If I'm addicted to your white lies in vain Can't get enough, can't get enough  
When you're telling me the white lies, champagne  
It's getting rough and I wanna know  
If I'm addicted to your white lies in vain Can't get enough, can't get enough  
When you're telling me the white lies, champagne  
It's getting rough and I wanna know  
If I'm addicted to your white lies in vain Don't go  
I tell myself that I'm not really hooked on you  
But I know  
If I stay then your use will become abuse When I'm trying not to break the fever  
And the medicine you just won't take  
Then I think about it and I can't live without it  
You're telling me that, that's alright Can't get enough, can't get enough  
When you're telling me the white lies, champagne  
It's getting rough and I wanna know  
If I'm addicted to your white lies in vain Can't get enough, can't get enough  
When you're telling me the white lies, champagne  
It's getting rough and I wanna know  
If I'm addicted to your white lies in vain Can't get enough, can't get enough  
When you're telling me the white lies, champagne  
It's getting rough and I wanna know  
If I'm addicted to your white lies in vain Can't get enough, can't get enough  
When you're telling me the white lies, champagne  
It's getting rough and I wanna know  
If I'm addicted to your white lies in vain
