Beautiful World

Jim Brickman

Strawberry lips shining in the summer sun
Canary tips glowing there for everyone
You fell asleep under the cherry tree

La, la, la, la, la, la
It's a beautiful world and we're all here

Your winter skin warming in the summer sun
We know within you will stay forever young
You fell asleep under the starlit sea
It's time to wake up

The moon is high above you
We're all here 'cause we love you
And when you finally open your eyes and ears
You'll see and you'll hear us singing

La, la, la, la, la, la
It's a beautiful world and we're all here
La, la, la, la, la, la
It's a beautiful world and we're all here
La, la, la, la, la, la
It's a beautiful world

You fell asleep under the starlit sea
It's time to wake up

The moon is high above you
We're all here 'cause we love you
And when you finally open your eyes and ears
You'll see and you'll hear us singing

La, la, la, la, la, la
It's a beautiful world and we're all here
La, la, la, la, la, la
It's a beautiful world and we're all here
La, la, la, la, la, la
It's a beautiful world
