

Make Up

Elefant

You finally take your make up off, I like your eyes
You finally take your lipstick off, I like your smile
You get up and dance around the room my eyes are on you
You get up and dance around the room my eyes are on you I see you smile and turn your head
You lift your arms and grab the bed
I don't know what you're thinking now
I just hope you're feelin' how much love I have for you
Whoa whoa whoa Your Spanish eyes are deep, I've fallen down
Your lips are so sweet, the night is perfect take off your dress
And get up and dance around the room a little more
We get up and dance around the room in love I see you smile and turn your head
You lift your arms and grab the bed
I don't know what you're thinking now
I just hope you're feelin' how much love I have for you
Oh, woah woah woah Kiss You taste like candy
You taste like a candy
You taste like candy You taste like candy
You taste like a candy
You taste like candy
You taste like a little piece of candy
