Counting Every Minute

Sonia

Counting every single minute
Counting every single minute
My heart is beating double time
My head is spinning out of line
And if I acted like a fool
Ain't it funny what love can do
I'm getting through the best I can
Trying to keep in control
But I feel like I could fly
'Cos I'll soon be by your side
(Chorus)
Couting every single minute
Every second, every hour too
Counting every single minute
Precious is the time when I'm with you
I feel as though we're out of time
When I'm with you the minutes fly
And every word you say to me
Goes round my head eternally
I try to use my common sense
But I'm like a child with a toy
It feels like a dream come true
'Cos I'll soon be holding you
Repeat Chorus
Couting every single minute
Magic are the moments shared by two
Counting every single minute
Precious is the time when I'm with you
I'm getting through the best I can
Trying to keep in control
But I feel like a could fly
'Cos I'll soon be by your side
Repeat Chorus
Couting every single minute
Magic are the moments shared by two
Counting every single minute
Precious is the time when I'm with you
Couting every single minute
Every second, every hour too

Counting every single minute
Precious is the time when I'm with you
Counting every single minute...
