

When a Man Does Wrong

Ashanti

It's been seven whole hours
Since you left me, babe
Sittin' here, thinkin' 'bout how
Now you let it slip away
I can't get no sleep
Don't even wanna go nowhereIt's on my mind, what you did wrong
And now you wanna come backWhen a man does wrong
Ain't no comin' back home
He's been out there too long
She won't even talk on the phone, settle thisWhen a man does wrong
Ain't no comin' back homeCan't come around
There ain't no place
She don't wanna see your faceSaid you never wanted to hurt me
Never even wanted to leave
Said that you'd never desert me
Now you're beggin' please, please, please believe"
Now, you're feelin' like a fool
Never thought about me, just youIt's on your mind, what you did wrong
And now you wanna come backWhen a man does wrong
Ain't no comin' back home
He's been out there too long
She won't even talk on the phoneWhen a man does wrong
Ain't no comin' back homeCan't come around
There ain't no place
She don't wanna see your faceWhy'd you have to do it baby
Do it, do it to me?
Why'd you have to use
And abuse me?See, I've been sittin', waitin' at night
Just wastin' my time
Now, now I know, now I know
Gotta go, gotta go, yeahWhen a man does wrong
Ain't no comin' back homeCan't come around
There ain't no place
She don't wanna see your face
