Pot Of Gold

Akon

Ohhh yeah, dada, dodo, dada, dodo, dada, dodo, Akon

Life come and go
So let the history be told
We're all out here
Hustlin' to make our way
And while you're stumblin' and fallin' (stumblin' and fallin')
Why don't you pick yourself up now (pick yourself up now)
You see we all out here
Working day by day

So tell me
How can we work it out
On that day when its time to share the gold at the end of the rainbow
How can we work it out
When good and evil meet
The day you kiss his feet
Cause it will soon come

You soon lose track of which way is up when your always being put down (being put down)
You gotta be strong and do what you feel in your heart
Regardless of who's around (regardless of who's around)
I know it might seem bold
But thats all we have (all we have)
Many centuries and we're steady getting old
Clutchin' on to what we never had

Sooo
How can we work it out
On that day when its time to share the gold at the end of the rainbow
(how can we) How can we work it out (how can we)
When good and evil meet
The day you kiss his feet
Cause it will soon come

How can we work it out
On that day when its time to share the gold at the end of the rainbow (share the gold)
How can we work it out
When good and evil meet
The day you kiss his feet

Cause it will soon come

How can we work it out (dada)
Dodo (how can we work it out)
How can we work it out (dada)
Dodo ohhhh (dada)
How can we work it out (dodo)
Da da How can we work it out (dodo)
(everybody sing along with me)

How can we work it out
On that day when its time to share the gold at the end of the rainbow (that pot of gold)
How can we work it out
When good and evil meet
The day you kiss his feet
Cause it will soon come (yeah)

How can we work it out
On that day when its time to share the gold at the end of the rainbow (that pot of gold)
How can we work it out
When good and evil meet
The day you kiss his feet
Cause it will soon come (soon come)

How can we work it out (work it out, work it out, work it out...)
