

# We Can Make It

## The Pierces

When we were young, love was an ocean  
Now that we've grown up, strange as a potion  
Under our tongues and clouding our eyes  
We can find love again  
If we just try  
We can make it  
We can make it  
We can make it  
When we were young, there were no strangers  
Now everyone feels they're in danger  
What have we won from all this fighting?  
We can find love again  
If we start trying  
We can make it  
We can make it  
We can make it  
When we were young, music was magic  
Magic was everywhere and we had to have it  
Now that we've grown up, nothing is changed  
Feel it, it's in the air and we have to have it  
We can make it  
We can make it  
We can make it  
We can make it  
We can make it  
We can make it
