

Stand Together

Beastie Boys

I don't see things quite the same as I used to
As I live my life, I've got just me to be true to
When I find that I don't know about just what to do
I turn and look withinâ€™ to see what I should do
Now I'm not sure what it takes to be hip
A lot of people making music that to me ain't shit
So I ask creation for rhymes for this jam
Gimme lickle solo and I'll take the mic stand(Love vibe, love vibe, love vibe, love vibe)
(Love vibe, love vibe, love vibe, love vibe)Yeah, as the earth spins into a brand new day
I see the light on the horizon's not fading away
Gonna shine from within, like a bright white sun
No need to hide and no place to run
Got the vibrations of the music bringing light to your mind
So you can move and groove, and feel the beat of the time
Sense the power in the air as it starts to move
You get a real good feeling that you just can't lose(Love vibe, contemplation time)
(Love vibe, intuition time)
(Love vibe, evolution time)
(Love vibe, resolution time)Free your mind, it's time for good times
And let yourself move, it's a time to shine
Spread your wings in the sky, feelin' good inside
You're breaking free, with no need to hide
I got the music cuttin' through me, take control of my soul
I can't hold back, I've got to let goStand together (people come together now)
It's about time (we've got to get together now)
Stand together (people come together now)
I said it's about time (we've got to get together now), come on
Stand together (people come together now)
I said it's about time (we've got to get together, y'all)I think we should stand together
