

She Fades Away

Alphaville

She's like a frost fern in my head
The lamplight burns my eyes
And then she fades away My pencil's frozen in my hand
And the letter I can't write
It seems to be a desert without end I woke up late at night
She called me up
Then disappeared And the echo of her voice
Filled the empty places in my dreams
With the silent tide She fades away again
She fades away
She fades away again
Don't go now, please stay My senses are cruising through a void
As pale reflections play on
The deserted roads I hear the humming of machines
A distant sound like thunder
Crawling through the cold There's no escape I know
I run around in circles
Without end And the more the memory grows
Dissolving from reality
With the silent tide She fades away again
She fades away
She fades away again
Don't go now, please stay Don't make me cry This time I've got to learn
I know, she won't return
This time I've got to learn
I know, she won't return This time I've got to learn
I know, she won't return
This time I've got to learn
I know, she won't return Don't make me cry
Don't make me cry
Don't make me cry
Don't make me cry This time
I know, she won't return
This time Don't make me
Don't make me
Don't make me
