

# If I Never Get to Heaven

Javier

What does your love mean to me?  
It's something I can't answer easily  
Just like the air that I breathe  
You fill me up inside  
You give me all that I need Like a bird flying high on a summer's day  
You're the wind that carries me away  
To a place where you and I will always stay  
Forever[Chorus]  
If I never get to heaven  
Then at least I will have known  
I had an angel here on earth  
That I could call my very own  
And if this world should end tomorrow  
Girl, this much I know is true  
I found my piece of heaven  
The day that I found you Longer than poets will rhyme  
Girl, my love will burn for you  
Until the end of time  
If I should die before tomorrow comes  
I won't regret a single day  
Because I had your love Must be something in the way you say my name  
It takes away my worries and my pain  
Girl, I know we'll make it through the rain together[Chorus][Bridge]  
Like a river flows and a flower grows  
My love for you will never fade  
Like the sun will rise in the morning sky  
You know that I am here to stay forever[Chorus][Bridge]
