

# Circlin'

Stephen Stills

Can I tell a people story, it ain't too long  
There's very few that can face each other or themselves alone  
So we go, circlin', round and about, no way out, no way in  
Circlin', hasslin' doubt when you know you can, well all right  
Feet, where are you goin', we're just circlin' yeah?  
The meaning of a runaround is a circle game  
Tellin' lies and bein' jive with the one you love hurt the same  
So we go, circlin', round and about, no way out, no way in  
Circlin', hasslin' doubt when you know you can, well all right  
Feet, where are you goin', we're just circlin' yeah?  
Go on, do it, straight ahead, do what you know

The best you can, it's good for your head  
Think about all the times you just up and ran  
So go on, you got to try, give yourself a hand  
Circlin', round and about, no way out, no way in  
Circlin', hasslin' doubt when you know you can, well all right  
Feet, where are you goin', we're just circlin' yeah?  
Do you know that time is only water that we drink  
Washes under bridges all eventually they're gonna sink  
So we go, circlin', round and about, no way out, no way in  
Circlin', hasslin' doubt when you know you can, well all right  
Feet, where are you goin', we're just circlin' yeah?
