

The Bridge

Elliott BROOD

Words and words and words, on the page appear
Said where's the love, oh my dying friend
Oh, you're right, you said you didn't know
Oh, you're right, you said you're bringing me down, by two Why and why we wonder now
Why it is you said you're coming down
Oh, you're right, you said you didn't know
Oh, you're right, you said you're bringing me down, by two Why and why and why we're left wondering
Where's the love you said, my dying friend?
Oh, you're right, you said you didn't know
Oh, you're right, you said you're bringing me down, by two
