Nowadays pressure increaseOh God, release stress an pressure, mek me freeze
Gimme some sunshine and peace
An a good girl fi please, take a rest, smokin trees
Away from dat wicked diseaseHigh fidelity rebellion, gimme a 20 million dollar sound fikill
An send dis tune on a mission
In the seeds we sow by singin dis tune
Is the cure an the healing, we treat bad feelings, causeYou feel the pressure when you workin from 9 to 5
You feel the pressure, soppm must happen inna your life
Free your mind, everybody a online, music is the cure
If you cyaan take it no moreOh God, release pressure an pain, mek me freeze
Gimme some sunshine and peace
Just a little break please, from that dreadful disease
Nowadays pressure increaseOh God, release stress an pressure, mek me freeze
Gimme some sunshine and peace
An a good girl fi please, take a rest, smokin trees
Away from dat wicked diseaseWe need a hit, still hear the promoter say come on gimme a hit
We know that you've been working really hard never quit
Your stuffs kinda wicked but it really don't fit
As you know time is money so come on, better be quickDon't forget we need time to shoot a video
Let's face it we need a scandal on a TV show
Gimme a cheesy hook to push it on the radio
Im in the biz, Ive gotta know
Believe me, thats the way it goesWanna cut out and lie in the sun
Catch a brease and go sip on mi rum
Theres no need to hide or to run
Cause all the fears and the worries are goneRight a now man its time to move on
Wanna champion girl inna mi arm
She give me love and sweet devotion
Rest gonna come dis bridge is donI am satisfied when I do what I like
I would not go for a fight, I try to turn up the light
Let me choose right, show me your sight
Before I decide what dream Ill ride
Which queen might be the one ya to sweetn my nightTo feed my hunger, were more than friends
Mek love last longer than one night stands
Let love get stronger than laws and plans
I burn O thunder you make me wonder

Under your spell gimme a chanceOh God, release pressure an pain, mek me freeze
Gimme some sunshine and peace
Just a little break please, from that dreadful disease
Nowadays pressure increaseOh God, release stress an pressure, mek me freeze
Gimme some sunshine and peace
An a good girl fi please, take a rest, smokin trees
Away from dat wicked diseaseWanna cut out and lie in the sun
Catch a brease and go sip on mi rum
Theres no need to hide or to run
Cause all the fears and the worries are goneRight a now man its time to move on
Wanna champion girl inna mi arm
She give me love and sweet devotion
Rest gonna come dis bridge is don
