

# Kiss The Flag

## Evans Blue

Don't shoot until you see  
The red and white  
And blue in my eyes  
They say were straving fences  
And it's not so comfortableHe thinks he grew up to be boring  
And so he goes to change his life  
I saw you get up on your toes  
But don't step back too fast  
Or you'll cut yourself in half[Chorus]  
I wanted  
All I wanted was to find  
There's something here inside of me they couldn't keep  
They woke up to hear me screamingJust shoot until you see  
The red on white  
And blue in my sky  
The proof is in the pictures  
And it's not so comfortingHe knows that one day they'll ignore him  
And push him to the side  
He said he kissed the flag before he died  
He took one for his country  
She said I'd do anything to have him back[Chorus]God help us  
Can we really win this fight  
Because no one knows which side you're on  
Anymore, anymore  
I'm lost and by myselfWhen this ends  
Will freedom be the casualty  
Or will it only  
Will it be only me  
Will it be only me  
Will it be, only me[Chorus]God help us  
Can we really win this fight  
Cause no one knows which side you're on  
Anymore, anymore  
You're not lost or by yourself
