

# Angel in Your Eye

## Austra

I'm a chemical reaction and my elements are aligned  
Baby if I hadn't known you, then I couldn't even start the fire  
You're still scaling the walls, looking for a way in  
Wrap me up inside you, warbling soft words, wandering eye...I need it  
I need it  
I need it  
I need itA bag of flesh is a magnet, a scent, a sound corrupt  
You took all my dignity, replaced it with a hand  
Handle me with ardor and I'll shudder  
But my chills are warm  
Delusion is persuasion  
Tenderizing me inside  
I need it  
I need it  
I need it  
I need it  
The fever grows  
Incandescent, does it show?  
The fever grows  
Incandescent, does it show?
