Crystal Lake

Poison the Well

Overheard your converstaoin
Tonight I'm not satisfied
Sitting here I realize
That I always think I'm rightSo it's over for all of you
So it's over for all of youMy scenery is lakes and trees
I just can't keep all concrete
I've fallen for this metal
And I love this handleSo it's over for all of you
So it's over for all of youTwo round holes cut into this fabric
And I will slide it over my headI'll chase you for all hours
I never see you make
The effort to chase me
Now your final place is this lakeStare at me now, on your way down
Stare at me now, on your way down
Stare at me now, on your way down
Stare at me
