Crystal Lake

Poison the Well

Overheard your converstaoin Tonight I'm not satisfied Sitting here I realize That I always think I'm rightSo it's over for all of you So it's over for all of youMy scenery is lakes and trees I just can't keep all concrete I've fallen for this metal And I love this handleSo it's over for all of you So it's over for all of youTwo round holes cut into this fabric And I will slide it over my headI'll chase you for all hours I never see you make The effort to chase me Now your final place is this lakeStare at me now, on your way down Stare at me now, on your way down Stare at me now, on your way down Stare at me
