22 Dreams

Paul Weller

I had 22 dreams last night
And you were in 21
The last one I saved for myself
Just to save my soulI got this scene by a fireplace
I lose control and Im in that place
I had 22 dreams last nightI had 45 films to watch
But only one I could take
The mysteries of a secret smile
It was so dull a placePull me over with a loving kiss
I remember all the things I missed
You mean so much with the darkness gone
I fell in love with the morning sun
I had 22 dreams last nightYou pick me up with a loving kiss
I remembered all the things I missed
You mean so much with the darkness gone
I fell in love with the morning sunI had 22 dreams last night
And you were in 21
Thats enough for a lifetime of dreams
Thats enough for anyone22, 22, 22, 22
22, 22, 22, 22
22, 22, 22, 22Just to save my soul
Just to save my soul
Just to save my soul
Just to save my soul
