

So High (feat. Wiz Khalifa)

Jadakiss

I'm so high, you can barely see me
Do you know the feeling of being so high? Between love and hate it's a fine line
 So I stay parallel to the sky line
 THC levels is through the roof
When you floating in the clouds you can view the truth
 Hush feel the rush from the altitude
Look down on 'em see what they about to do
 So you already know what not to do
 That Moroccan hashish is like rocket fuel
Yea sometimes it better not to see the ground
 Yea sometimes it better not to be around
 Always keep a couple dollars and a P around
I might experience turbulence when I see the town
 The worlds under me
I'm where the lightning and the thunder be
 'Cause down there ain't no fun to me
 With that said I ain't going back
I'm bout to blow a sack and I all know is that I'm so high I can't see the ground
 My life shines so bright can you see me now
 Ohh I'm so high I'm not coming down
 I won't fade away, this high's gonna stay
I'm so high Rollin up, money can't folded up
 How you gonna say you cold as us
 Can't smoke enough
Diamonds in my chain nah homie it ain't 14 karats
 Lil nigga that ain't gold enough
Staying on top while these haters praying I stop and
You niggas waiting on cars while I pull em strain out the lot
 You could catch me rolling up reefer, I stay on that pot
And I'm always repping for my gang I know I say that a lot
 'Cause I can remember the days before I got paid
 Me and my niggas was trying to make our way
 We getting on fuck what y'all say
Made some millions and got niggas with me tryna do the same thing
 So I made moves bossed up in the game
 Ball hard don't get crossed up in the game
 Seen alotta dudes get loss up in the game
That's why every time you see me I'm so high I can't see the ground
 My life shines so bright can you see me now

Ohh I'm so high I'm not coming down
I won't fade away, this high's gonna stay
I'm so highHigh as the towers before they knocked them down
Teflon like Gotti before they locked him down
Word to the mollies niggas in poppin now
But I'm just chillin just passing the pot aroundI'm so high I can't see the ground
My life shines so bright can you see me now
Ohh I'm so high I'm not coming down
I won't fade away, this high's gonna stay
I'm so high
