

Millstone

Brand New

I used to be such a burning example
I used to be so original
I used to care I was being careful
Made sure I showed it to those that I loved I used to sleep without a single stir
'Cause I was about my father's work Well, take me out tonight
The [Incomprehensible] of fools on my [Incomprehensible]
A milestone stone around my neck
Be my breath, there's nothing I wouldn't give I used to pray like God was listening
I use to make my parents proud
I was the glue that kept my friends together
Now they don't talk and we don't go out I used to know the name of every person I kissed
Now I've made this bed and I can't fall asleep in it Well, take me out tonight
The [Incomprehensible] of fools on my [Incomprehensible]
A milestone stone around my neck
Be my breath, there's nothing I wouldn't give Well, throw me that lifeline
The [Incomprehensible] of fools on my [Incomprehensible]
A milestone stone around my neck
Be my breath, there's nothing I wouldn't give [Incomprehensible]
There's no time to see, he's running in the street
Nobody knows my name
I think they'd recognize me, [Incomprehensible] I pray for that mistake Take me out tonight
The [Incomprehensible] of fools on my [Incomprehensible]
A milestone stone around my neck
Be my breath, there's nothing I wouldn't give Well, save my life tonight
The [Incomprehensible] of fools on my [Incomprehensible]
A milestone stone around my neck
Be my breath, there's nothing I wouldn't give
