This Is How I Feel

Glenn Hughes

This is how I feel
This moment
This is how I feel
Right nowDon't know what will be tomorrow
Take it all the way
Take it all the wayI'm on the ladder
The sun is shinin'
And nothin' stands in my way
I say goodbye to the fear
Goodbye to the fearAnd it don't matter, I need remindin'
Come with me, don't be afraid
And I know just why I'm here
Know just why I'm hereThis is how I feel
This moment
This is how I feel
Right nowDon't know what will be tomorrow
Take it all the way
Take it all the wayI'm on a wave in the clear blue water
And theres' no cloud in the sky
And I know just what it is
And I know just what it is
Cuz I'll be safe
And you know I oughta
And I'm not livin' to die
And you know I can't resist
Know I can't resistThis is how I feelAnd I know what I see
There's so many things I want to be
And I always wonder why
Just what is meant to be
And I only wanna say
Just what I really feelThis is how I feel
This moment
This is how I feel
Right nowDon't know what will be tomorrow
Take it all the way
Take it all the way
Take it all the way
