Bionic Revolution

Urge Overkill

Free the children
Said free the children
I said free, free the children
Free the childrenOh, I recall like it was yesterday
The future came within a dream
A crowd of people they didn't have much to say
What they said they didn't meanThey said free the children
Said sweet little children
I said sweet, sweet little children
Free the childrenFree little children
Sweet little childrenSave us from the bionic revolution
(Now hold on)
Save us from the bionic revolution
(Save us from the what?)Save us from the bionic revolution
(Say bionic who?)
Save us from the bionic revolution
(That's what I thought you said)Sweet little children
Free little children
Oh, free the children
