

Stay

Lewis Watson

When I close my eyes, I hear you singing
Singing me a song
That I'll forget, I always forget I try to trick myself back to sleeping
You pick me up, but I let you down It was so clear, but now it's gone
I couldn't keep my eyelids shut
Why can't you stay
Stay, stay If only I could dream, we could start again
If only I could dream, we could start again When I close my eyes I see you dancing
Dancing me a song,
Just out of reach, just out of reach I need you in a day when I'm not dreaming
You pick me up, I don't wanna let you down It was so clear, but now it's gone
I couldn't keep my eyelids shut
Why can't you stay
Stay, stay If only I could dream, we could start again
If only I could dream, we could start again It was so clear, but now it's gone
I couldn't keep my eyelids shut
Why can't you stay
Stay, stay If only I could dream, we could start again stay
If only I could dream, we could start again stay
If only I could dream, we could start again
If only I could dream, we could start again
