

Headed Home

The Lylas

Can take you so far away to a distant place
But you know this is how you grow
To harvest, you must soul Sometimes you have to face the world alone
Be behind everyone I know Whatever I may go, I'm headed home
When the sun kisses my face
I'll never know these are my routes, my perfect place
I feel complete where I belong
My heart can be a better song
I carry on and I was strong
?Cause I'm headed home Don't forget how we used to be
Children in the street, laughing running free
In those times, you need to find your ground
All you have to do is look around And just see you don't have to face the world alone
Be behind everyone I know Whatever I may go, I'm headed home
When the sun kisses my face
I'll never know these are my routes, my perfect place
I feel complete where I belong
My heart can be a better song
I carry on and I was strong
?Cause I'm headed home I feel complete where I belong
My heart can be a better song
I carry on and I was strong I'm headed home
When the sun kisses my face
I'll never know these are my routes, my perfect place
I feel complete where I belong
My heart can be a better song
I carry on and I was strong
Cause I'm headed home
