

# Yeah Yeah

## Sam Means

Today was the day  
That I put everything in perspective  
I fell asleep, when I woke up  
Everything changed  
And the sky was turned on  
But that was before  
But that was before

You came along and you turned me on  
With a little bit of love  
And little bit of yeah yeah

Today is the day  
That I threw out everything that I wanted  
I was scared, but that's alright  
Who needs a ride that's taking too long?  
That was before  
That was before

You came along and you played me a song  
With a little bit of love  
And little bit of yeah yeah

Lalalalalalalalala

You came along and you played me a song  
With a little bit of love  
And little bit of yeah yeah  
Yeah Yeah (5x)
