

# Favours For Favours

## The Futureheads

Many times we'd help each other out, favors for favors is nothing new  
You're asking me to use my fingertips, what I'm sculpting and molding isn't you  
These may seem like stupid words, only two more that you've heard,  
Everybody's looking for their saving grace, in their race to find a place

I was watching through the window, you were going through the dances  
I've been writing all of it down, I'll be taking all my chances  
This always seems to happen

[Chorus:]

There's something that you do, (ahhhh ahh ahhh)  
I just can't help myself (ahh ahhh ahhh)  
And I wish that I could move more in time with you

I've watched you step and I've watched you turn, (ahhhh ahh ahhh)  
I've watched you move like a knife in the water, (ahhhh ahh ahhh)  
Watched you move across the floor, over to me, (for all to see)

Now you're asking what it is I want, half a chance to dance with you  
With a little time to work it out, I know the results could astonish you

I was watching through the window, you were going through the dances  
I've been writing all of it down, I'll be taking all my chances  
This always seems to happen

[Chorus]

I've watched you step and I've watched you turn, (ahhhh ahh ahhh)  
I've watched you move like a knife in the water, (ahhhh ahh ahhh)  
Watched you move across the floor, over to me, for all to see

Favors for favors, (favors for favors)

[Chorus]

I've watched you step and I've watched you turn, (ahhhh ahh ahhh)  
I've watched you move like a knife in the water, (ahhhh ahh ahhh)  
Watched you move across the floor, over to me, (for all to see)
